

SwiftBytes User Guide

The first screen requires entering the correct credentials for either an Admin, Customer, or Delivery Person, and then selecting the corresponding button.

The login window has a title bar 'SwiftBytes - Login'. The main area has an orange header with the 'SwiftBytes' logo. Below the header is a dark grey section with two input fields: 'Username:' and 'Password:'. At the bottom are three orange buttons: 'Admin', 'Customer', and 'Driver'.

Customer Order/Payment – After selecting a restaurant from the left-hand side, the customer will choose “View Menu.” Once the menu is displayed, the customer can click the “Place Order” button and enter their selections in the input pop-ups.

Once an order is created, the customer can select the “Pay Last Order” button to complete payment. The customer will be prompted with a few inputs, and the payment will then be processed.

Once payment is complete, the customer can click the “Order History” button to view a report of their past orders.

Delivery Person (Assigned/Complete Order) – Once logged in, the driver will see a list of their assigned orders on the left. The driver can then select the “Refresh Orders” button to check for any new orders.

Driver can then select the “Complete Orders” button, which will prompt them to enter the order ID of the order to complete.

The screenshot shows a web application window titled "Driver - Mia Washington". The main content area displays "Assigned Orders for Mia Washington" with a list item: "Order ORD-2 - Olive Garden -> Amadeo Pena (\$8.0)". A modal dialog titled "Input" is open, prompting the user to enter the "Order ID to complete:". The modal includes a question mark icon, a text input field, and "OK" and "Cancel" buttons. On the right side of the interface, there is a vertical sidebar with three buttons: "Refresh Orders", "Complete Orders", and "Logout".
